THE NECTAR PILLOW

More supportive than the old-fashioned feather pillows, we made the Nectar pillow with three types of premium foam. Notably our visco-elastic memory foam provides the perfect contour and comfort while the dunlop latex provides the rebound to perfectly support your body.

One size definitely doesn't fit all when it comes to your pillow purchase either, which is why the Nectar pillow comes overstuffed. Just take out the foam until it matches your preferred level of fluff. Make sure to hang on to that extra foam, too, just in case you'd like it more firm at some point down the line. We believe adjust to your personal level of comfort.

WHY CHOOSE NECTAR?

NO MORE TOSSING AND TURNING

One of the best things about the NECTAR mattress is that it relieves pressure wherever you normally feel it the most. NECTAR is firm enough to support you, but soft enough to be gentle where you're sensitive so you can wake up pain free!

NO MORE SLEEPING HOT

The combination of a Tencel cooling cover and 2 layers of gel memory foam means that heat is diffused from the mattress. Breathable foams allow air flow through the mattress for an additional cooling system so you'll never sleep hot again.

NO MORE MOTION TRANSFER

With NECTAR, your sleep is protected from being disturbed by restless partners, kids, and pets. Our premium memory foams and considered design including powerful edge support means that the mattress absorbs movement throughout the night so you sleep soundly.
